What is Freight Allowed?

Dedicated Distribution's "Freight Allowed" program is the lowest threshold freight payment program in the industry. On orders of \$150.00 or more that qualify* for **Freight Allowed**, you may deduct the freight when your payment is received within 30 days of invoicing date. Freight deductions are allowed only at the time invoice payment is made.

Only a few items do **NOT** qualify for inclusion in our Freight Allowed Program. They are:

- **Solutions / liquids.** (Examples are respiratory water from Hudson RCI-Teleflex Medical, Cardinal/Allegiance).
- **Disposable incontinence** products (diapers, under pads).
- **Oxygen cylinders, beds, mattresses.**
- **Items drop-shipped from vendors** (we pass along the freight they charge us).
- All Express/Premium Delivery (**UPS Next Day, 2nd Day**, etc.) shipments.
- Orders sent out under our **Zero Inventory/Your Name Here(R) drop ship** program (orders sent from our warehouse directly to your customer's addresses).

If your order contains any of the above items along with other items that do qualify for Freight Allowed, please move the non-qualifying items onto a separate order. However, you may use the same Purchase Order if you like. When you do, we suggest you place a letter or number after it (i.e. 3745A) for your own records. This will help differentiate it from the qualifying order. Any order that contains an item excluded from the Freight Allowed Program will disqualify the entire order for Freight Allowed deductions.

For additional information, please call Dedicated Distribution Customer Service 800-325-8367 option 3.

*Shipments to Alaska, Hawaii, and Puerto Rico are excluded from Freight Allowed.
